

The AP Automation Gap:

Where Businesses Stand and What's Next

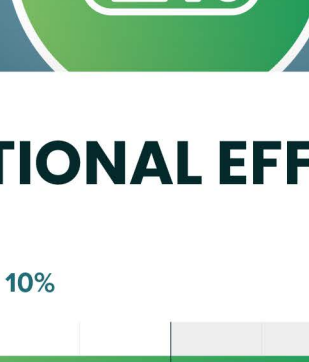

AP remains the **#1 automation focus in the back office for the 4th consecutive year**. And those who have automated are seeing major benefits:

But most businesses are

falling short.

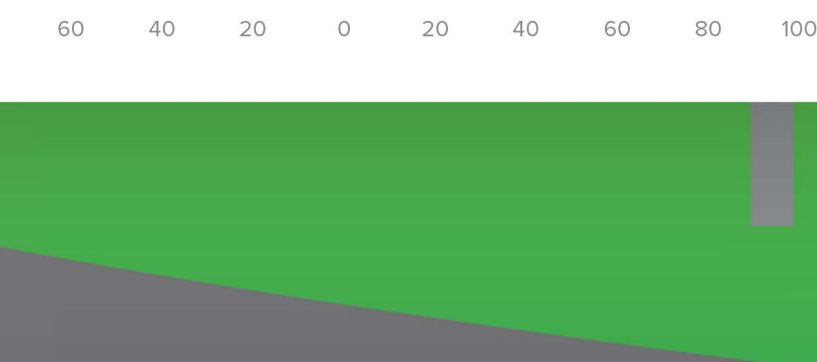

Quantified benefits of AP automation

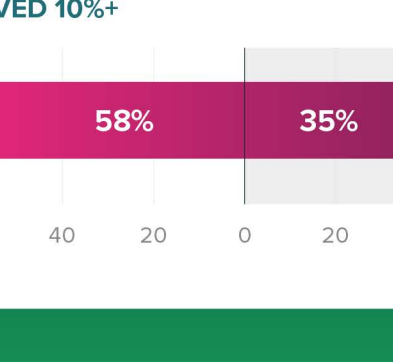

OPERATIONAL EFFICIENCY

PAYMENT CYCLE TIME

RECONCILIATION TIME

COST SAVINGS

Opportunities for growth

While 65% of businesses have automated some aspects of AP, only 19% have fully automated it—leaving significant value on the table.

The most common AP workflows automated

PAYMENT EXECUTION

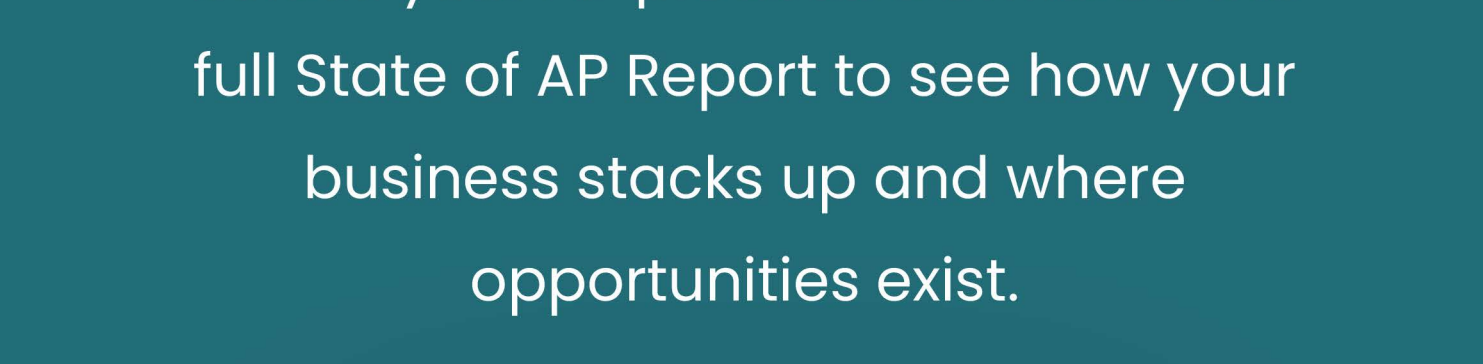

INVOICE ROUTING & APPROVAL

PAYMENT AUTHORIZATION

INVOICE DATA CAPTURE & CODING

PAYMENT RECONCILIATION

PO-INVOICE MATCHING

VENDOR ONBOARDING

What's holding businesses back?

! Incomplete automation solutions

! Gaps in end-to-end automation

! Manual intervention still required

Unlock the full potential of AP automation

Increase efficiency, security, and cost savings by expanding automation across your AP process. Download the full State of AP Report to see how your business stacks up and where opportunities exist.
